(State or other jurisdiction
of incorporation)

001-39717
(Commission
File Number)

20-2903526
(I.R.S. Employer
Identification Number)

433 Plaza Real, Suite 275
Boca Raton, Florida 33432
(Address of principal executive offices)

(631) 830-7092
(Registrant's telephone number, including area code)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (See General Instruction A.2. below):

- ☐ Written communications pursuant to Rule 425 under the Securities Act of 1933 (17 CFR 230.425)
- ☐ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- ☐ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- ☐ Pre-commencement communications pursuant to Rule 13e-4(e) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.0001 per share	NMAD	The NASDAQ Stock Market, LLC

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Item 7.01 Regulation FD Disclosure

On October 6, 2026, Nomad Power Solutions, Inc., (the “Company”), issued a press release announcing the launch of its 2026 Nationwide Mobile Power Demonstration Tour. The program will bring the Company’s flagship Voyager and Voyager Falcon transportable battery energy storage systems (BESS) to 26 stops across the Mountain West, Northeast, and Southwest in October and November.

The information in this Report, including Exhibit 99.1 attached hereto, is being furnished and shall not be deemed “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that Section, nor shall it be deemed subject to the requirements of Item 10 of Regulation S-K, nor shall it be deemed incorporated by reference into any filing of the Company under the Securities Act or the Exchange Act, whether made before or after the date hereof, regardless of any general incorporation language in such filing. The furnishing of this information hereby shall not be deemed an admission as to the materiality of any such information.

Item 9.01 Financial Statements and Exhibits

(d) Exhibits. The following exhibits are filed herewith.

Exhibit Number	Description
99.1	Press Release dated October 6, 2026
104	Cover Page Interactive Data File (embedded within the inline XBRL Document)

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

NOMAD POWER SOLUTIONS LAUNCHES NATIONWIDE MOBILE POWER DEMONSTRATION TOUR

Voyager and Voyager Falcon Systems Showcase Rapidly Deployable, Utility-Grade Battery Power at 26 Stops Across Three Regional Roadshows in October and November

BOCA RATON, Fla. — October 6, 2026 — NOMAD Power Solutions, Inc. (“NOMAD” or the “Company”) (Nasdaq: NMAD), a provider of transportable, utility-grade battery energy storage systems through its wholly owned subsidiary NOMAD Transportable Power Systems, today announced the launch of its 2026 Nationwide Mobile Power Demonstration Tour. The program will bring the Company’s flagship Voyager and Voyager Falcon transportable battery energy storage systems (BESS) to 26 stops across the Mountain West, Northeast, and Southwest in October and November, offering prospective customers the opportunity to see the systems in operation and discuss potential applications with NOMAD’s team.

“Customers are looking for reliable power that can be deployed quickly and moved as their needs change,” said Geordan Pursglove, CEO of NOMAD Power Solutions. “Utilities, data center developers, and industrial operators are navigating power infrastructure constraints that can affect their operations and expansion plans. By bringing our systems directly to prospective customers, we aim to demonstrate their capabilities live and in person.”

The tour follows growing inbound customer interest in NOMAD’s mobile power solutions. The majority of the Company’s current sales activity originates from inbound inquiries, and its sales pipeline includes opportunities across utility, infrastructure, and other strategic customer markets. The demonstrations are intended to enable prospective customers to evaluate system capabilities and deployment options.

Each stop will include a live demonstration of NOMAD’s transportable, utility-grade battery power technology, designed for megawatt-scale deployment in under one hour. The Voyager and Voyager Falcon platforms give customers the flexibility to deploy and relocate battery power as operating needs change, with commercial options that include equipment sales, rentals, and Energy-as-a-Service. There is no guarantee that the demonstration tour will result in the acquisition of new customers.

Tour Schedule

The demonstration tour will consist of three regional roadshows:

October 6–8, 2026 – Mountain West Roadshow

Hosted with Peterson Co., this segment will include five stops across Salt Lake City, Lehi, and Midvale, Utah, and Meridian, Idaho. Demonstrations will feature the Voyager 1.0 unit, which provides 1 MW of power and 1.3 MWh of energy-storage capacity.

October 13–26, 2026 – Northeast Roadshow

Hosted with First Line Associates, this segment will include 14 stops across New England and the Mid-Atlantic, including Exeter and Manchester, New Hampshire; Westwood, Massachusetts; and Berlin, Connecticut. The Voyager Falcon demonstration unit will depart from NOMAD's Waterbury, Vermont facility.

November 2–16, 2026 – Southwest Roadshow

Hosted directly by NOMAD, this segment will include seven stops across California, Nevada, Arizona, and New Mexico, including San Ramon, Las Vegas, Tempe, and Albuquerque. Demonstrations will feature the Voyager Falcon unit.

About NOMAD Power Solutions, Inc.

NOMAD Power Solutions, Inc., through its wholly owned subsidiary NOMAD Transportable Power Systems, provides transportable, utility-grade battery energy storage systems. The company's mobile battery energy storage system (BESS) platforms deliver rapidly deployable, scalable energy solutions for electric utilities, data centers, commercial and industrial customers, emergency response, renewable energy integration, and grid modernization. By mobilizing energy storage, NOMAD enables customers to deploy power where and when it is needed without waiting for permanent infrastructure.
